

Fill in the following folder and file permissions tables based on the following criteria:

1. There are two groups: **disney** whose members are **pluto, mickey y goofy**; **hanna** whose members are **fred y scooby**.
2. Only the group **hanna** can access the folder **barbera** to create, write and delete files. Disney group cannot enter into this folder.
3. The users of **disney** can create and write files in the folder **paris**, but they cannot delete them. The users of **hanna** can only read the files of this folder.
4. There is a file called flinstones.doc in the folder **barbera**. The user **scooby** cannot open this file.
5. The users **mickey** and **fred** are able to copy files in the folder **movies**. The other users can only read files in this folder.
6. Do not delete Administrator permissions. They will always have "Full Control" over all the resources.

Complete this exercise considering that all the folders are at the same level.

*Hanna | Scooby
fred.
